1. Introduction & Overview

Bonge Riders is a mobile-friendly web application built specifically for the **Bogonko-Ngelani Motorcycle Stage**. It brings the entire welfare and payment operation — daily contributions, welfare fund disbursements, member records, and financial reporting — into one place that every member can access from their phone.

What the app does

- ✓ Records each member's KSh 50 daily stage contribution.
- ✓ Tracks all welfare fund income and spending with a live balance.
- ✓ Stores member profiles, motorcycle details, and next-of-kin information.
- ✓ Lets members check their own payment history and standing using a PIN.
- ✓ Sends push notifications to all devices when payments are recorded.
- ✓ Produces printable PDF spending reports for transparency.
- ✓ Gives the Chairperson full admin controls to manage members, finances, and settings.

How it is organised

The app is split into two access levels. **Members** can view their own information and payment history. **Admins (Chairperson)** can record payments, manage the member list, add income and spending entries, and change settings. All data is stored securely in Google Firestore and is accessible from any internet-connected device.

2. Getting Started — Registration

Before you can use the member portal, you must be registered in the system. New members go through a simple four-step self-registration form, after which the Chairperson reviews and approves the application.

Registration steps

1 Stage Contribution Fee

Confirm whether you have paid the mandatory KSh 10,000 stage contribution. Pay via M-Pesa Paybill 544600, Account 942540. Enter the M-Pesa confirmation code to proceed.

2 Personal Details

Enter your full name, phone number, national ID, county, and next-of-kin name and phone number. All fields marked with * are required.

3 Motorcycle Details

Enter your motorcycle registration plate, make/model, and year. Ensure the plate matches your logbook.

4 Review & Submit

Check all your details on the summary screen. Tap Submit Application. You will receive a reference number — keep it safe. The Chairperson will approve your application and notify you via SMS.

- Your phone number is your unique identifier in the system — use the same number you registered with every time you interact with the app.
- After approval, the Chairperson sets a 4-digit PIN for you (default: last 4 digits of your phone number). Change it from your Member Portal.

3. Member Portal

The Member Portal is your personal dashboard. Access it from the home screen by tapping **Member Portal**. You will be asked to enter your registered phone number and your 4-digit PIN.

Logging in

- 1 Enter Phone Number**
Type your registered phone number (e.g. 0712 345 678).
- 2 Enter PIN**
Type your 4-digit PIN. Tap the eye icon to show/hide it.
- 3 View your dashboard**
Once verified, you see your profile, payment history, and standing.

What you can see and do

- Your full profile — name, phone, ID, county, next of kin, motorcycle details.
- Your payment history — which days you paid and which you missed.
- Your current standing — how many days paid this month and total contributed.
- Welfare fund balance — how much the group has available.
- Change your PIN — tap Change PIN and enter a new 4-digit code.

- Members cannot see other members' payment records or contact details.
- If you forget your PIN, ask the Chairperson to reset it for you.

4. Daily Payment Check-In

Every day each active member contributes **KSh 50** to the stage welfare fund. The Payment page is used by the Chairperson or designated collector to record who has paid on any given day. Admin login is required.

Recording payments

1 Open the Payment page

From the home screen tap Payment. Sign in with your admin email and password.

2 Select the date

Today's date is selected by default. Tap the date field to pick a different day.

3 Mark individual members

Each member row shows a button: grey Unpaid or green Paid. Tap it to toggle their status. The button updates instantly.

4 Mark all at once

Use the All Paid button at the top to mark every member paid in one tap. Use All Unpaid to reset the day (today only — past dates cannot be reset).

Past-date rules

- You can go back to any past date and mark a member as paid if they were missed.
- Once a member is marked paid on a past date, that record is locked — it cannot be undone to prevent accidental reversal of historical records.
- The All Unpaid button is disabled for past dates.
- A push notification is sent to all registered devices each time a payment is recorded.

The summary strip at the top of the Payment page shows the running count of Paid, Unpaid, and Total members for the selected date at a glance.

5. Welfare Fund

The welfare section on the home screen gives every member a real-time view of the group's financial health — total income collected, amount spent, and the current balance. Members can also see welfare assistance that has been disbursed to members in need.

How income is calculated

- ✓ Daily contributions: KSh 50 per member per day, automatically summed from payment records.
- ✓ Other income: one-off amounts added manually by the Chairperson (e.g. fines, donations).
- ✓ Stage registration fees: the KSh 10,000 paid by each new member on joining.

Welfare assistance

When a member or their immediate family suffers a bereavement or medical emergency, the group may vote to disburse welfare support. The Chairperson records the spending entry with the recipient's name, amount, and purpose. This is visible to all members for full transparency.

6. Spending & Financial Records

The Spending page (admin only) gives the Chairperson a full ledger of all money leaving the welfare fund. Every entry shows the date, description, category, recipient, and amount.

Adding a spending entry

1 Tap + Add Spending Entry

A form slides up from the bottom of the screen.

2 Fill in the details

Description / purpose (required), category (Welfare / Medical / Funeral / Operations / Emergency / Other), recipient name, amount in KSh, and date.

3 Tap Add Entry

The entry is saved immediately and the balance updates in real time.

Editing and deleting entries

- Tap the pencil (Edit) button on any entry to correct details.
- Tap the bin (Delete) button to remove an entry — you will be asked to confirm.
- Changes are reflected immediately in the balance summary.

Printing a PDF report

Tap the **PDF** button in the top-right corner. A printable spending report opens in a new tab showing all entries sorted by date, the total spent, total income, and the current balance. Use your browser's Print function to save or print it.

7. Chairperson / Admin Panel

The Chairperson panel is the administrative heart of the app. Access it from the home screen by tapping **Chairperson** and signing in with the admin email and password. Only accounts with email/password sign-in are granted admin privileges.

Member management

- View all members — search by name or phone number.
- Add a member — enter their name and phone number. A default PIN (last 4 digits of their phone) is created automatically.
- Edit a member — update name, phone, member number, ID, county, next of kin, and motorcycle details.
- Delete a member — removes them from the active list. Their past payment records are kept so historical income totals remain accurate.
- View member details — tap any member row to see their full profile including motorcycle info and next-of-kin contact.

Registration approvals

When a new member submits a self-registration form, it appears in the Chairperson panel under Pending Applications. The Chairperson reviews the M-Pesa confirmation code and details, then taps **Approve** to add them to the active members list, or **Reject** to decline.

Income management

- Add other income — record non-daily contributions such as fines, donations, or stage registration fees with a description and date.
- Edit or delete income entries as needed.
- All income feeds into the welfare fund balance shown on the dashboard.

Settings

- Stage name — the name displayed across all pages.
- Daily rate — the KSh amount charged per member per day (default KSh 50).
- Paybill and account number — shown on the registration and payment pages.
- Admin PIN — a separate PIN for admin verification flows.

■ Never share the admin email or password. Only the Chairperson should have admin credentials. All writes to the database are protected by Firebase security rules that verify admin identity server-side.

8. Push Notifications

The app sends real-time push notifications to all devices that have installed it as a PWA (Progressive Web App) and granted notification permission. Notifications work even when the app is closed or in the background.

When notifications are sent

- When a single member is marked Paid — the notification shows their name and the date.
- When All Paid is tapped — a summary notification shows how many members were marked paid.
- Notifications are not sent when payments are unmarked or deleted.

Installing the app for notifications

1 Open the site in Chrome (Android) or Safari (iPhone)

Navigate to the Bonge Riders URL in your browser.

2 Add to Home Screen

On Android: tap the three-dot menu → Add to Home Screen. On iPhone: tap the Share button → Add to Home Screen.

3 Allow notifications

When prompted, tap Allow. The app registers your device for push notifications.

9. Frequently Asked Questions

Q: I forgot my PIN — what do I do?

Contact the Chairperson. They can reset your PIN from the Members List page by editing your member record and setting a new one.

Q: I paid my daily contribution but the app shows me as Unpaid.

The Payment page is updated by the Chairperson or collector at the stage. Remind them to mark you as paid. They can also back-date it to the correct day.

Q: Can I pay for multiple days at once?

Yes. The Chairperson can open any past date and mark you as paid. Each day is recorded separately in the system.

Q: What happens to my records if I leave the group?

Your payment history remains in the system to keep the income totals accurate. Your name is removed from the active members list so you no longer appear on the daily payment screen.

Q: Is my personal information safe?

Yes. All data is stored in Google Firestore with security rules that enforce access control. Members can only see their own data. Full financial records and member details are accessible only to admin accounts.

Q: The app is not loading — what should I do?

Check your internet connection. If you installed the app as a PWA, some pages may load from cache when offline. Open your browser and navigate to the site directly to force a fresh load.

Q: How do I update the stage name or daily rate?

The Chairperson can change these in Settings inside the Chairperson panel.

Q: Can more than one person have admin access?

Admin access is tied to email/password accounts in Firebase. Contact Anthropic or your developer to add additional admin accounts.

10. Roles & Permissions Summary

The table below summarises what each user type can see and do in the app.

Feature	Member (PIN login)	Admin (Email/Password)
View own payment history	✓	✓
View own profile & motorcycle details	✓	✓
Change own PIN	✓	✓
View welfare fund balance	✓	✓
View spending entries	✗	✓
Record / unmark daily payments	✗	✓
Add / edit / delete spending entries	✗	✓
Add / edit other income	✗	✓
Add / edit / delete members	✗	✓
Reset another member's PIN	✗	✓
Approve registration applications	✗	✓
Change stage settings	✗	✓
Print PDF spending report	✗	✓

For technical support or to report a problem, contact your stage administrator.
